## Central Venous Access Course

### FEEDBACK FROM PREVIOUS CVAC

- Succinct and concise introduction, clearly explained and good amount of students to allow for a better one to one teaching/learning experience
  - Great course, good length, plenty of hands on experience
  - Really well organised, fun and interesting course!
  - Thoroughly enjoyable course. All faculty members appeared down to earth and approachable
  - Good value for money especially for those with no experience
  - Teaching was very good from all the organisers, comprehensive and covered lots, everyone happy to answer questions
  - Very good course. Pre-course material very intuitive and relevant.
  - Was very useful in understanding sonography and relevant anatomy
-
